Dear students,

As we all know, the recent pandemic has accelerated digitization for enterprises and individuals, making 'remote working' the accepted new normal for ensuring business continuity. Overnight, businesses have had to depend on Cloud computing technology for creating infrastructure that is secure and convenient. Learn the most in-demand industry skill & get acquainted with the fundamentals of cloud technology by attending the AWS Cloud Masterclass.

Join us on **AWS Cloud Discovery Day** for an overall understanding of AWS Cloud terminology & AWS core services. In this interactive 3-hour masterclass, you will learn to build a facial recognition app in 30 mins and also gain insight on starting your career in AWS. At the end of the session, learners will also earn a badge for endorsing their skillset on professional networking sites.

Hurry & book your session. Limited seats only.
